Diptish De

Co-Founder @Moodrip | UI/UX Designer/ Frontend Designer |
Graphics Designer
Kolkata, West Bengal, India

Summary

I build fast, ship often, and help others do the same.

As a Founder: I co-founded moodrip.com to solve the "merch headache" for campus fests. Built and launched in 36 hours using Framer, we've delivered custom apparel for various college events, scaling to 17+ orders through pure word-of-mouth.

As a Community Lead, I drive impact by bridging the gap between learning and launching:

- * Mentorship: Led a weekend sprint helping 38 peers ship their first portfolio sites.
- * Fundraising: Secured #1,00,000+ in sponsorships for flagship Unstop events.
- * Leadership: Spearheaded workshops and tech gatherings to foster a "shipping" culture.

I sit at the intersection of rapid development and community growth. Currently exploring diverse projects and scalable web architectures where I can apply my "ship-fast" mentality to solve real-world problems.
